*Conciant Lifestyle Concierge® Announces  
Sales Model Interior Design & Full Service Staging ‘Signature Service’*

RANCHO MIRAGE (CA) — Conciant Lifestyle Concierge, the world’s premier provider of lifestyle concierge services, today announced its newest urban real estate initiative. “Conciant is a solutions oriented organization, and our real estate customers need solutions to the enormous challenges they face in today’s housing market. By providing full service interior design and sales model staging of furniture, fixtures, art, accessories and other soft goods at substantially *no up-front out of pocket expense*, we are minimizing the downside by saving our clients hundreds of thousands of dollars.” said Genessa Epting, EVP of New Business Development. “The response to this initiative has been incredible. It is as welcome as our sales retention program which addresses a particularly difficult challenge with vertical construction; reducing the cost of sale. Today we continue to provide personal concierge services to buyers *during construction* of their residence to increase buyer retention by engendering client loyalty, and we do so at no charge to our clients. Why? This is our client loyalty program.” said Chanel Young, Director of Developer Services. The result of strategic partnerships with talented interior design professionals and luxury brands, the model interiors service is not limited by city, state or country of residence. The service is available to Conciant clients worldwide.
